

**CASHBACK** is the definitive Tribute to the Music and Character of Johnny Cash as presented by Ric Herrington. Ric has performed, recorded and toured in the US, Mexico and UK, with live appearances on television and radio, for over thirty years. A versatile singer/songwriter and instrumentalist himself, Ric is comfortable going into a nursing home or hospital as well as performing venues like social clubs, hotels, town hall stages and open air festivals.

Johnny Cash had a heart for the people... the poor and beaten down, the sick and lonely old, and the prisoner who has long paid for his crime. Ric says, *"Many times it seems as if Johnny is on stage behind me. I have been known to weep in the middle of 'Hurt.' I get goose bumps when the crowd sings 'I fell in to a burning Ring of Fire' LOUDER than the PA system! Or burst out laughing while repeating Johnny's cheeky humour 'They're probably smoking coffee and drinking big cigars!'"*
